Field Leadership

As noted below, it will be critical for field offices to ensure that staff members are aware of the need to hold all pending cases for individuals who were born or who are nationals of these countries. We will be providing the standard NFTS code to which offices must place these cases while pending additional guidance. It is important that all field offices use the code provided to facilitate national tracking. I will provide you with that code Monday. Additionally, NER is in the process of creating a report for all field offices in USCIS what will identify the cases and NFTS file locations within your respective offices to facilitate the segregation of the cases. We should have that also early next week.

Please let us know if you have questions or concerns. Thanks

Subject: Executive Order: PROTECTING THE NATION FROM FOREIGN TERRORIST ENTRY INTO THE UNITED STATES - Field Operations Instructions

On January 27, 2017, the President signed an Executive Order that, in part, relates to the suspension of processing of certain immigration benefits. Section 3(c) of the Executive Order invokes sections 212(f) and 217(a)(12) of the INA to temporarily suspend the entry immigrants and nonimmigrants who are from Syria, Iraq, Iran, Somalia, Yemen, Sudan, and Libya for 90 days from the date of the Executive Order.

Effectively immediately and until additional guidance is received, you may not take final action on any petition or application where the applicant is a citizen or national of Syria, Iraq, Iran, Somalia, Yemen, Sudan, and Libya. Field offices may interview applicants for adjustment of status and other benefits according to current processing guidance and may process petitions and applications for individuals from these countries up to the point where a decision would be made. At that point, cases shall be placed on hold until further notice and will be shelved with specific NFTS codes which will be provided through the Regional Offices. Offices are not permitted make any final decision on affected cases to include approval, denial, withdrawal, or revocation.

Please look for additional guidance later this weekend on how to process naturalization applicants from one of the seven countries listed above who are currently scheduled for oath ceremony or whose N-400s have been approved and they are pending scheduling of oath ceremony.

We expect to issue more detailed guidance and procedures as needed in the coming days. Questions or requests for additional clarification may be directed to the Regional Offices through your chain of command.

Dan and Michael,

Per the below e-mail chain, OIDP is asking what effect the EO will have on card production for I-551s and for EADs. For grants of LPR status prior to 1/27/17, it would appear that we could proceed with card production, but we want to confirm before moving forward with card production. In the chance that I-485s were granted after the hold, those cards should not be produced and the cases identified, correct?

Is there any guidance on the issuance of EADs?

Shelley,

I know that I am not in PHI right now, but I spoke to the FODs and they are making sure that those working OT today know about this.

Have a great weekend.

Field Leadership

As noted below, it will be critical for field offices to ensure that staff members are aware of the need to hold all pending cases for individuals who were born or who are nationals of these countries. We will be providing the standard NFTS code to which offices must place these cases while pending additional guidance. It is important that all field offices use the code provided to facilitate national tracking. I will provide you with that code Monday. Additionally, NER is in the process of creating a report for all field offices in USCIS what will identify the cases and NFTS file locations within your respective offices to facilitate the segregation of the cases. We should have that also early next week.

Please let us know if you have questions or concerns. Thanks

Shelley M. Goodwin

Good Morning Michael/John,

I have sent the below message to all ISOs approved to work OT today and asked for them to confirm that they received my message.

I also contacted Richard Emhof who is the SISO on duty in the office and he confirmed that all ISOs in the office have been made aware of this directive.

I have instructed all Section Chiefs/SISOs to ensure that all ISOs are aware of and follow this directive. We will segregate these cases and await guidance from NER regarding the new NFTS RPCs to store them in.

Kathy

Sorry, I hit send before I could enter a message.....

FOD has suspended approvals on any application coming from a listed country in the Presidents EO. We will undoubtedly have cards in the production queue from these countries. The ban began on January 27th so I am presuming that anything in the queue would predate the EO.

Should we go ahead and produce the cards and mail them?

My recommendation is we produce and mail cards. These individuals are already in the US and have presumably been properly vetted. We will, however, do whatever instructed.

Sure, that would be great. I just don't want to be producing cards and then someone makes a decision we shouldn't, which means we have to manually pull them which is a lot of work, or we get them out and are then told to retrieve them, which is another issue.

But I agree with you, these folks are already here and have been properly vetted, (I presume) and the EO prohibits entry, not the grant of LPR or EAD benefit.

Thanks Mike.....

Field offices may interview applicants for adjustment of status and other benefits according to current processing guidance and may process petitions and applications for individuals from these countries up to the point where a decision would be made. At that point, cases shall be placed on hold until further notice and will be shelved with specific NFTS codes which will be provided through the Regional Offices. Offices are not permitted make any final decision on affected cases to include approval, denial, withdrawal, or revocation.

Please look for additional guidance later this weekend on how to process naturalization applicants from one of the seven countries listed above who are currently scheduled for oath ceremony or whose N-400s have been approved and they are pending scheduling of oath ceremony.

We expect to issue more detailed guidance and procedures as needed in the coming days. Questions or requests for additional clarification may be directed to the Regional Offices through your chain of command.
